

## PART 4 POEMS PRO

**POEMS PRO** is a screen designed for the active and experienced Poems users. It combined a number of features from other menus in Poems to provide greater speed and convenience in trading.

By clicking **“PRO”** on the top bar menu, you will be presented with a new window consisting of multiple functions that let you view in a number of frames, as described in the following : (see Figure 4.1)

Figure 4.1 : PRO Page

### 1. SET INDEX

Shows SET Index change in plus and minus; total market trading turnover in value; and intra-day High/Low indices.

### 2. LATEST SET NEWS

Shows the latest news released from SET. This item will refresh automatically when a new piece of news is released. Click the news headline to read the content. In addition, you can read intraday comments by clicking the **“Research”** button.

### 3. QUEUE OF 16 STOCKS

This function let you monitor the QUEUE of up to 16 stocks. You can save up to 4 Queue Lists, with each list containing 4 stocks. So you can see the details of 4 stocks at a time. The details include “Bid” and “Offer” Price and Volume in 5 Queue levels; Last Price; Price Change; Buy and Sell Volume; and Average Buy and Sell Price.

Figure 4.2 : QUEUE OF 16 STOCKS

By entering the stock name and hit “Enter” on your keyboard, the “Queue” for that particular stock will be displayed.

By selecting a QLIST, the Queue of up to 4 stocks in that list will be displayed at the same time. If you change any one of the stocks, the system will automatically update the QLIST.

On the top of the individual stock, you will see the last five trade direction with “+”, or “-”, or “=” signs. Each represents the direction of the “Last Trade Price”.

“+” means the last price done was higher than the previous price done.

“-” means the last price done was lower than the previous price done.

“=” means the last price trade done equaled to the previous price done.
